Jon's presentation to 250 of our franchise owners and managers **reignited the passion** that's deeply rooted within our core values of our company. We were very happy with the **excitement around his presentation** and know that our franchisees took home many ideas that they could **implement into their business right away.**

Andrew McCuiston, Vice President, Goldfish Swim School Franchising, LLC

Working with Jon Dwoskin has been the **best experience this company has had!** Jon put together two programs that were geared completely to the issues and challenges that our sales and management staff deal with on a daily basis. He took the time to thoroughly research us and the needs we had and put together very **thought provoking and interactive seminars.** The comments afterwards from ALL the participants were extremely positive and one in particular said, "I have been to several seminars but never to one that related so much to my issues and that I could actually **walk away with techniques I could use immediately!**"

Paul, Executive Managing Director

Jon has been instrumental with **helping our team's professional development skills grow.** With his guidance and assistance, we have successfully hosted two leadership workshops that have **greatly impacted our team's skill set.** Our primary focus was learning better communication and time management skills. Jon took our areas of concern and created a workshop that was personalized for our needs. **Our management team has seen a tremendous difference** within our team - **We couldn't have done it without him!**
